Families Believe in the Bluestone Care Model:

“ **My mother** has been cared for by a Mankato Clinic Bluestone Vista provider care team at Pathstone Living and Birchwood Cottages. My mom fell when she was living at home. She was in and out of the hospital and both care facilities last year. No matter where we were and what was happening, Bluestone Vista was our constant. Many elderly patients, especially in Mother’s position with dementia, have a caregiver. Mom’s Bluestone provider has been truly supportive of us and the decisions I make. She’s not only helping Mom, she’s helping me. My life has settled down because Mother’s life has settled down. Our Bluestone provider and staff have been wonderful. Thanks to the Bluestone Bridge, I can communicate with her care team 24 hours a day.”

C. Baker

“ Currently all of **our residents** are using the Bluestone Vista service from Mankato Clinic. A monthly on-site visit from a primary care provider relieves stress for our residents and their families. It’s challenging for both families and residents to go to the clinic for medical care. Residents are able to receive care where they feel safe and comfortable. Between visits, our caregivers and nurses use the Bluestone Bridge to communicate with our residents’ providers when they notice changes or acute issues. Bluestone has helped reduce emergency room and urgent care visits for our residents.”
